Florida House of Representatives – House Redistricting Committee Redistricting Update – November 1, 2011

Redistricting Subcommittee Meetings – November 1 and November 3

The Florida House's redistricting subcommittees will meet this week to finish their review of options and best practices put forward by the public. Additionally, the members of the subcommittees will conduct an overview of the statistical tools available to the Legislature for their review of legislatively produced maps.

If you would like to get a better understanding of those statistical tools, below are links to sample statistical reports for each of the existing maps – Congressional, State House and State Senate – and a helpful guide to the terminology in those sample reports:

The Legislature Needs Your Redistricting Maps Today! (November 1)

In September, House Redistricting Committee Chairman Will Weatherford asked that members of the public submit their proposed redistricting maps by today, November 1. As of this morning, 134 publicly produced maps have been posted online, available via the [Public Submissions](#) button at www.floridaredistricting.org, for the Legislature to consider.

Specifically, the public has provided the Legislature with 39 complete and 25 partial Congressional maps, 14 complete and 21 partial State House maps, and 20 complete and 15 partial State Senate maps, in addition to the hundreds of written suggestions and many hours of testimony and public meetings.

If you are working on a redistricting map, please consider providing it to the Florida House of Representatives or Florida Senate as soon as possible, in order that the map be given a thorough review.

As always, if you have any questions or need additional information, please feel free to contact us.

Sincerely,

Benjamin M. Fairbrother
House Redistricting Committee
