Subject: Redistricting

Gentlemen,

First, I wish to thank Senate President Mike Hairdopolos and this Committee for allowing public access in the redistricting project.

Second, I am from Franklin County. As a small, rural county, our issues differ from our larger, urban neighbors. We would like to be included in a district of other rural counties so that our voices are not smothered by the larger, urban counties. I hope you will consider this in your redistricting plans.

Thank you.
